The Alliance for Unity is a group of civic, business, and religious leaders devoted to fostering a more united community in which all people are included and valued, regardless of affiliations or differences. 

In service of this shared vision on this matter, the Alliance points out that it takes no position at present on the broad issue of Immigration Reform in the United States.

The Alliance believes strongly that a highly-educated population is a key to the future of our State. It is good public policy to encourage the ambitions and dreams of all students by making a college education affordable to institutional and public education in the State. 

To that end, the Alliance supports the movement for Increased Investment in Public Education. 

Institution of In- State Tuition for Undocumented Students.

Statement on In-State Tuition for Undocumented Students

January 24, 2007
